Connecting the Trails:
18.5 mile traverse from Ermine Hill Trailhead to Byers Lake Campground. 26.6 mile traverse from Ermine Hill Trailhead to Upper Troublesome Creek Trailhead.

Special Features:
This trail system offers popular multi-day backpacking trips in south-central Alaska. Hiking is through rolling alpine and sub-alpine terrain with outstanding views of Denali, and numerous small glacially scoured lakes. Lower elevations are forested.

Planning Your Route:
Most people hike from north to south because of less total elevation gain. Hikers can start from the Little Coal Creek Trailhead or Ermine Hill Trailhead and finish at Byers Lake Campground or Upper Troublesome Creek Trailhead (See Guide to K'esugi Ridge Trail System North & Guide to Upper Troublesome Creek Trail for more information). These are all one-way trips, so pick-up or drop-off arrangements must be made prior to departure. Day-hikes to timberline and around Byers Lake are also popular.

Safety and Considerations:
Weather on K'esugi Ridge can change fast. Be prepared with proper clothing and navigation tools in case low clouds move in. Some trails may experience seasonal closures due to high bear concentrations. Please respect closures and always be bear aware while traveling Denali’s trails.

Park Rules:
Open fires are prohibited, please use designated fire rings or a camp stove. Pets must be on a leash while in the trailhead parking lot, and under voice control on trails or in the backcountry.
